TWENTY-FIRST ANNIVERSARY OF THE GREATEST
REFERENCE BOOK PUBLISHED IN THE WORLD

It is THE WORLD'S pride to announce this volume annually. It is issued at an expense far in excess of the nominal sum charged for it. . . . Nearly a quarter of a million are sold each year, and these tens of thousands of books become as TENS OF THOUSANDS OF INSPIRED AND SPEAKING ADVERTISEMENTS for the New York World. Even this PAPER,

great in its circulation and great in its influence, is not SO IMPORTANT but that it shines from the reflected glory of the World Almanac. In this day of exaggeration and "over-advertising" it is hard to convey to the uninformed just what is the difference between the price charged for the WORLD ALMANAC and its real value. Among those who use it

and INDORSE IT AS INDISPENSABLE are editors, authors, bankers, brokers, financiers, lawyers, doctors, teachers, legislators, Cabinet officials, State Executives, and commercial men in all the various branches of trade. It is the book for the clerk and the book for the proprietor. It is the book for the home and the book for the store. BUY IT NOW.

Besides the 600 and over pages of the always useful and intensely interesting statistical matter of an encyclopedic nature, embodying

**MORE THAN 1,000 DIFFERENT SUBJECTS
AND OVER 10,000 FACTS AND FIGURES**

the 1907 edition contains HUNDREDS OF NEW FEATURES, each more or less of National and International interest, embracing in part the following, most important:

- | | | | |
